PC Repairs on the North Isles!

- Has your **Windows PC** gone pear-shaped?
- Is your **printer** misbehaving?
- Is your **scanner** or **camera** playing hard-to-get?
- Are you having difficulties with **Windows** itself?
- Are you having problems with **other software**?

- If so - **don't** go off the deep end and do **this** to it!
- The problem might actually be quite minor - i.e. easy and cheap to fix, so:
- Call me instead for a **free appraisal** of your hardware or software problem;
- **Onsite repairs** are very often possible.

- Your PC could soon be its old cheerful self again, hopefully without costing you an arm and a leg!
